

EV4 Gremlin

What is EV4?

EV4 is an innovative, European product designed for special customers who appreciate high quality, functionality and unforgettable experiences.

From its design to applied technology and materials, EV4 is modelled on solutions widely used in aviation. It is easy to ride on whereas its three wheels ensure much better stability than two-wheel vehicles.

Each EV4 is constructed for individual orders. It is the best vehicle to move around an urban jungle and spend free time in an eco-friendly way.

Technical specifications

Drive: 700W brushless motor
