## Cargo Scooter

**EV4 Cargo Scooter** is a mini scooter designed in two versions – standing and seated – intended for transporting small packages and cargo weighing up to 40 kg. In standard version, the vehicles are equipped with a 250W brushless electric motor, powered by a 36-volt lithium-ion battery with a capacity of 10 amp-hours. The riveted construction made from aviation grade aluminium ensures high strength at a low weight, thanks to which the range of scooters is up to 30 km at a maximum speed of 20 km/h. The seated version is equipped with a folding handlebar and a removable seat. A more powerful version of the vehicles is also available, equipped with a 500W brushless electric motor, powered by a 48-volt, 21 amp-hour lithium-ion battery. Optionally, the scooters can also be equipped with LED lights and a solar panel mounted on top of the cargo crate.

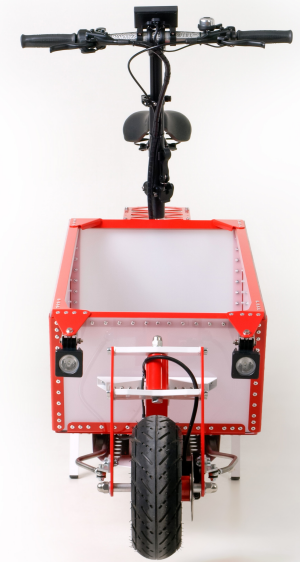

### Cargo Scooter – Standing version

Drive: 350W brushless motor (in standard version)  
 Battery: Li-Ion 36V, 10Ah (in standard version)  
 Brake: rear hydraulic disc brake (front brake is optional)  
 Speed: +-20 km/h (in standard version)  
 Range: +-20-30 km  
 Weight: 25 kg  
 Length: 190 cm  
 Width: 40 cm (handlebar 60 cm)  
 Height: 125 cm  
 Loading crate capacity: +-50 L  
 Crate length: 70 cm  
 Crate width: 40 cm  
 Crate height: 22 cm  
 Charging time: 1-4 h, depends on the charger  
 User weight: max. 100 kg  
 Cargo weight: max. 40 kg  
 Front wheel: 10 inch on a 4 inch rim  
 Rear wheel: 16 inch  
 Turn radius: 1,5 m  
 Construction: riveted with aviation grade aluminium frame  
 Warranty: 2 years for the vehicle and one year for the battery

### Cargo Scooter – Seated version

Drive: 350W brushless motor (in standard version)  
 Battery: Li-Ion 36V, 10Ah (in standard version)  
 Brake: rear hydraulic disc brake (front brake is optional)  
 Speed: +-20 km/h (in standard version)  
 Weight: 30 kg  
 Length: 190 cm  
 Width: 40 cm (handlebar 60 cm)  
 Height when folded: 70 cm  
 Loading crate capacity: +-70 L  
 Crate length: 77 cm at the top, 47 cm at the bottom  
 Crate width: 40 cm  
 Crate height: 27 cm at the front, 39 cm at the back  
 User weight: max. 100 kg  
 Cargo weight: max. 40 kg  
 Front wheel: 10 inch on a 4 inch rim  
 Rear wheel: 16 inch  
 Turn radius: 1,5 m  
 Construction: riveted with aviation grade aluminium frame  
 Folding handlebar and seat  
 Warranty: 2 years for the vehicle and one year for the battery  
 Optional: LED lights and a solar panel (moved forwards on top of the crate)
